Notes from the Nurse

From Celina ISD: We are working diligently to prevent the need to shift to virtual learning district-wide, and we need the help of our families.

We have experienced a significant decline in communication from parents involving family members diagnosed with COVID. As you continue monitoring the health of your family, we need your help sharing critical information with campus teams so that we may mitigate any potential spread to classmates and campus staff. We cannot overemphasize the importance of following district procedures for reporting absences to your child's campus as we work together to maintain the safety of our schools.

Working together, we can help ensure that our students and staff can continue in-person learning in an environment that is safe for all members of our school communities.
